# STRIKE WINTER HIKE FOR CLIMATE JUSTICE

## LACE UP YOUR HIKING BOOTS FOR THE INTERNATIONAL MARCH FOR CLIMATE JUSTICE FROM THE 19TH TO 21ST JANUARY 2020

Motivated by the worldwide demonstrations for climate justice, we are bringing our protest to Davos in January 2020, where those who are primarily responsible for the climate catastrophe will meet at the World Economic Forum (WEF).

Over the past 50 years the WEF has claimed to be „committed to improving the state of the world“ and has failed miserably.

Why should we trust those that are primarily responsible for the climate crisis to find a just solution when they are the ones who have backed us into a dead end?

Climate justice is not a marketing slogan to increase profits, but the prerequisite for a good life for everyone everywhere by fighting the power-hungry corporations.

We stand for global climate justice and want to assume responsibility. Therefore we call for a massive three-day hike from Landquart to Davos to let the business leaders know that it is time for them to step down.

We plan to hike the close to 50 kilometers long route on snow-cleared roads. Warm clothes and sturdy winter hiking boots are needed, but not special equipment such as snowshoes. There will be places to sleep overnight for everyone - just bring your sleeping bag and mat. A ski tour to Davos is planned for experienced skiers on Tuesday

In Davos, we will join the demonstration against the WEF on Tuesday, 21st January. In addition, the global climate movement is invited to carry out actions for climate justice as part of the international campaign „By 2020 We Rise Up“ during this period across the globe.

Put together an affinity group of 5-10 people to facilitate democratic grassroots organising structures. There will also be an actions training and several other workshops and talks on the Friday and Saturday before in Bern and Zurich.
